SARA OMAR MAHMOUD

Full Stack .NET Developer | Backend-Focused

Cairo, Egypt | +20 106 730 4619 | saraomar12380@gmail.com| LinkedIn | Portfolio

PROFESSIONAL SUMMARY

Full Stack .NET Developer with ٤+ years of software development experience, with strong expertise in backend architecture, API development, database design, and enterprise systems. Experienced in building end-to-end applications using C#, ASP.NET Core, SQL Server, MongoDB, and user-facing technologies across web, desktop, and cross-platform applications. Skilled in translating business requirements into scalable solutions, integrating real-time services, and contributing across both backend and frontend application layers.

CORE SKILLS

Languages & Frameworks: C#, .NET, ASP.NET Core, ASP.NET Web API, ASP.NET MVC, REST APIs, LINQ

Frontend & UI: HTML, CSS, JavaScript, Razor Views, Bootstrap, React

Architecture & Practices: System Architecture, Requirement Analysis, Business Logic Design, Clean Architecture, API Design , Dependency Injection, SOLID

Databases: SQL Server, MongoDB

Desktop: WPF, Windows Forms, .NET MAUI, Flutter

Reporting: RDLC Reports

Real-Time & Integration: SignalR, Milestone Systems SDK, GMap.NET

Tools: Visual Studio, Visual Studio Code, Git, GitHub, Postman, Docker

PROFESSIONAL EXPERIENCE

Freelance Full Stack .NET Developer (May 2025 – Present)

• Architected the Mandoobi System end-to-end — a live salesperson tracking and workflow management platform built on ASP.NET Core and MongoDB, from initial database schema design through production-ready API delivery.

• Built the backend using Clean Architecture and REST API best practices to improve maintainability, scalability, and feature development speed.

.NET Backend Developer – MTI, Cairo, Egypt (March 2021 – May 2025)
• Designed and implemented backend architectures for 7+ enterprise monitoring systems.
• Translated complex business requirements into optimized technical and database solutions.
• Developed secure and scalable APIs using ASP.NET Core and ASP.NET Web API.
• Integrated Milestone Systems SDK into WPF and Windows Forms applications.
• Modernized legacy systems to enhance performance and maintainability.
• Participated in all SDLC phases from analysis to production.

KEY PROJECTS

• LPR & Parking Management Systems – Real-time vehicle recognition and analytics.

• Mandoobi System – Live salesperson tracking and workflow management.

• Ticketing & Tolling System – Automated tolling and subscription-based services.

• VMS & BMS Platforms – Access control, alarms, and centralized monitoring dashboards.

• Entrance Platform.

• Access Control System — Milestone XProtect VMS Plugin.

• Company Archive Management System.

EDUCATION

Bachelor of Computer Science
Faculty of Computer & Information Science, Ain Shams University
